

**WE WANT
YOU ON OUR
TEAM!**

DO YOU KNOW HOW TO PLAY INNEBANDY?

Innebandy, or «Floorball» as it's called in English, is played indoor, mostly during the winter half of the year. It's a perfect combination with outdoor activities during the summer months.

The floorball rules allow a game which is technical, with rapid movements of both the ball. It is played at a high tempo, guaranteeing excellent physical exercise.

Floorball is for everyone, and it is relatively gentle on the body. We have players ranging from 5 to over 50 years old.

Our sport closely resembles ice hockey, although we play on a sports floor wearing shoes.

- There is a 50 cm board around the field
- Each team has five outfield players with plastic sticks, and a goalkeeper (without a stick).
- Quick substitutions to maintain a high tempo.
- The playing time for seniors is 3x20 minutes, and the clock stops during interruptions in the game.

GETTING STARTED IS REALLY EASY

- Even if you haven't tried it before, you quickly learn the stick technique. It's great practice for hand-eye coordination.
- It's a relatively inexpensive sport. Compared to many other sports, we have low training fees. The equipment for a youth player is affordable. Most already have indoor shoes, and a stick costs around 500 NOK for a beginner.
- Girls and boys play on teams together up until their teenage years and sometimes even longer. And it works perfectly fine.
- Everyone is welcome to join us! We focus on having fun, and we assist those who are new or have special challenges. We hope you will enjoy floorball as much as we do!
